London, April 8th

Regarding the possibility of war between Greece and Turkey it is impossible to say anything definite; some days the question is burning, the next it dies, to come up again.

It is confidently believed that a compromise will be arrived at and war avoided.

The basis of settlement is on the terms of Berlin treaty, with some slight modifications in the interest of Turkey conceded by Greece.

The Government Irish Land-bill has been introduced and embodies the principles known as the Three F's, viz free sale, free rents, fixity of tenure.

Interpellation in Deputies yesterday about foreign policy. Cairoli's explanations not satisfying, a vote of want of confidence was passed and the Cairoli-Depretis Cabinet have resigned en masse.

NATIONAL CREDIT.

The quarterly amortization of our Home Loan affords another proof, not only of the steady progress and increased prosperity of this country, but of the high credit which its Government has reached. In a country such as this, where foreign capital is scarce, manufacturing interests in the cradle and skilled labor sparse, we have naturally to depend on the crude productions of the land for everything, and these productions, for many reasons, command in the world's market but small representation. It is not to be supposed that a land whose chief exports are hides, jerked beef, tallow and wool, can hold the same status in the world's commerce as a nation that freights steamers with costly manufactured wares, the production of which demands a science, a capital and a labor of which we are to the present utterly deficient. The United States combines the rude products of the land with the splendour of manufactured goods. We, to the present, cannot soar so high, and hence it is that the gigantic social influences, representation and power that such civilizing articles as rich silks, velvets, cotton goods, &c, naturally work on a country, people, its credit, and its market, are wanting in our element of national credit.

Yet, with nothing but the sheep, the cows, and the hay, we manage to pay our way and meet our engagements so punctually that our home debts run up to par, and in a market where money is rarely worth less than seven or eight per cent. In the instance now under consideration the regular amortization of one series of our debt, Treasury Bills, is stopped, since holders refuse to surrender the stock for amortization except on the payment of 8 p. cent premium.

The history of this stock, known as Treasury Bills, is most remarkable. Some five years ago the National Government, finding itself without funds, and, through the severity of the great commercial crisis at that period, unable to raise money in the market, the Minister of Hacienda proposed the creation of this stock, which was to be receivable at the Custom House, and which would bear 12 p. cent interest, and it was thought that the stock to be launched on the market would be negotiable at or about 50 p. cent of its par value. Congress, and many parties not members of Congress, considered that such terms were far too onerous for the country; the Minister went out of office, and Dr Plaza took charge of the portfolio, and under his guidance the proposed Treasury Bill law was so modified that the interest was reduced to 9 p cent per annum, the stock to be paid out by the Government at par. Although the law was passed in 1876, at the end of that year there was not a single Treasury Bill issued or paid out, save $800,000 fts. to the National Bank to complete the National Government's subscription to the bank, and the reason was that no one cared about receiving from the Government Treasury Bills at par, when in the market the stock was unknown and sure to command a great discount.

At the end of 1878, we find, by reference to the Minister's Memoria that there was then only issued, including the amount paid to the National Bank, 1,515,281 fts., and that the 4 per cent. amortization, according to the Minister's estimates, corresponded to 11½ per cent.

It is, however, hardly necessary to go so far back in the history of this stock, when six months ago the Minister of Hacienda, to pay off the troops, sold off one million of this 9 per cent. stock in this market at 75, or say 25 per cent. discount, and it was about then that orders from London came for investment in the stock, which, continning by succeeding mails, led the Treasury Bills up to par, and to-day the stock is so scarce in the market that the sales on the Bolsa for the last month or two have been at a premium.

The bids for the amortization of this stock sent in on Friday were—

Felip Bonero 10,000 at 108.94
Do ..... 5,000 „ 108.90

both of which were declined. Mr. Agote, the Chief of the Public Credit Department, interpreting the law to his own reading, declines to amortize at a premium, but it does seem to us that the Government will have no other course to adopt than to pay the market value of the stock, and, we may remind our readers, that many years ago the United States Treasury, say about the years 1854 and 1855, amortized its debt at a high premium.

The amortization of National Bonds, or as they are now termed Hard Dollars, also forms a most agreeable chapter for those who study this country and its future. Some of the bids sent in were at par. Par for a stock that a few years ago was bought on the London market at '40,' and even under. Par for a 6 per cent. interest bond with but 1 per cent. amortization, and which is quoted to-day in London at 73, gold, equal to say 84 here. In running over the list of bidders for the amortization we find the name of ex-Gover. Tejedor, who for the very bonds which he now amor-

Can be used with COLD WATER. Sole Agents MOORE & TUDOR, Maypu 95 and 127. Beware of imitations and falsification

tizes at 95, offered them last October at 85. Can anything be a greater lesson, Even those who failed last quarter to amortize this stock and sent the bonds to London, where they were sold at 73½ ex. div., *erred!* Had they kept their bonds they would have done ten per cent better. The subject, indeed, claims notice, and speaks a progress, a growth and a prosperity which our humble pen, with all its censured enthusiasm, cannot keep up with.

The following were the bids for the amortization of National Bonds created under the law of 1863—

1. M L Gonzalez	2,000	100
2. J G Lenguas	10,000	87½
3. Robert Ramsay	3,500	91
4. L Altamira	1,500	88.95
5. S Damieri	1,600	87.85
6 G Pratge	48,400	95
7. D C Kelly	10,000	90
8. Carlos Tejedor	28,200	95

Of the foregoing the following were accepted—

J G Lenguas	10,000	80.75
S Dumier	1,600	87.85
L Altamirano	1,503	88.95
D C Kelly	10,000	90

But a still more remarkable feature of this never-to-be-forgotten quarterly amortization is that the new National Bonds under the law of 1876, which in the market always commanded a lower price than the Bonds of 1863, are now worth more, and amortized at still higher rates. The following were the bids—

M L Gomez	5500 at	97
G Pratge	1800	95

The Public Credit Department accepted Mr Pratge's bid to the extent of 1500 at 95. Have our readers forgotten how about a year or so ago Mr. Maschewitz came within an ace of amortizing these very bonds at this rate, and the ecstatic surprizes at the event? Readers, things are growing faster in this country than we are aware of, and, with peace and administrative economy, the Argentine Republic may laugh to scorn at the doubts which are cast on her future.

The La France's Mails.

Gibraltar, March 17th

The correspondent of the *Times* telegraphing from Durban on the 10th inst., says:—'Since sending my last despatch I hear that the Home Government propose to follow up the armistice by appointing Sir H Robinson, Sir John de Villiers, and Sir E. Wood, as British Commissioners, to meet a similar commission of the Boers, thus conceding to the latter sovereign rights. If this be done, and the Queen's authority be withdrawn in present circumstances from the Transvaal, her supremacy in South Africa will be fatally jeopardized, alike among the English, the Dutch, and natives. The prevailing opinion is that until the Queen's forces have marched through Laing's Nek and occupied Pretoria, Heidelberg, Wakkerstroom and Potchefstroom, there will be neither peace nor order in South Africa. If the Boers agree to such a demonstration of the Queen's authority on the understanding that they will at once be granted free institutions, so much the better.

Sir Garnet Wolseley will, the *Daily News* believes, presently receive a peerage, taking the title of Lord Wolseley.

We understand, says the *Daily Telegraph*, that Sir Hercules Robinson has been directed, if time will allow, to take part in the negotiations for peace which are just now proceeding in Natal, and that President Brand's assistance in the matter will be officially recognised

The hopes of peace which have prevailed at Constantinople are, as appears from a telegram from the correspondent of the *Standard* at Pera, now succeeded by a fear of war. The Turks are said to be of opinion that, even if they granted the Greeks all they demand, such submission would not obviate a war. The chief difficulty arises from the Albanians, who pasture their flocks in Epirus and Thessaly, and who would suffer so great a loss from the transfer of that territory to Greece, that they oppose it to the utmost.

A Vienna telegram of the night of the 10th inst. says—Since last night a gale of almost unprecedented violence has been blowing in Vienna and the neighbourhood. The instruments at the Meteorological Institute mark 112 kilometres per hour. Several streets have been closed to traffic, falling slates and tiles having rendered them unsafe. There have been a large number of accidents since this morning.

London, 11—Great excitement prevails in Ireland on account of the arrests which continue to be made in that island. The prisoners will remain in custody a year and a half without any legal proceedings.

Paris, 13—A telegram from Algiers announces that the Arab tribes on the Morocco frontier are fighting amongst themselves, some bloody engagements having taken place. It is not known what has led to hostilities.

London, 12—Several meetings have been held to advocate peace with the Boers, and others are to be held to-morrow.

Dublin, 12—The Archbishop of this diocese has issued a Pastoral letter against the Land League and more especially against the participation of women in the movement. Yesterday and to day more arrests have been made.

London, 11th—A telegram from the Cape announces the resumption of hostilities between the English and the Basutos.

London, 12th—In the House of Commons the third reading of the Irish Arms' Bill has been passed by 250 against 28 votes. The *Daily News* correspondent in South Africa sends an interesting account of an interview with Mr. Joubert, President of the Provisional Government in the Transvaal. The latter explained clearly the wishes of his countrymen, who are resolved to fight to the end for their independence. He considered an arrangement with England possible by the recognition of the independence of the Transvaal beyond the River Vaal, England annexing that part of the country south of that river.

MONTEVIDEO

Redemption is the word of the hour, and never before was the B. Oriental in such great want of a redeemer. But redemption at the present moment means a radical change in the Government, a clean sweep of surgeons, pill boxes and apothecaries in the Government House. The press has at last come to the conclusion that a redeemer is necessary, but who is he? Certainly not Santos; less so Latorre; both may be safely reckoned amongst the black sheep.

Latorre does not trust Santos, and vice-versa; Spencer says that there is no trust amongst unmitigated rogues. Nevertheless, Santos is, perhaps, slandered; Latorre well deserves it for the way he abandoned the presidential chair. The present Minister of War has lingered too long in giving explanations, and all the water in the River Plate will not wash him white now. The press has been preaching since months that he is the bane of the country, and the people at last believe it.

Meantime it has been said that Latorre has been kind enough to address a few lines to his good friend President Vidal, assuring him that he harbors no intentions of invading the country as long as he sis in the Presidential chair. President Vidal may be individually congratulated on the fact; but there is a manifest threat in the letter: the ex dictator will not molest President Vidal, but he gives to understand that his successor will not enjoy the privilege of his condescending approval. Should the letter and its tenor be true, the Government of the B. Oriental will be unworthy of the name, should it for one moment notice the epistle.

Any Government that depends upon the will of an outsider, of an individual like Latorre at present, does not deserve to remain in power for 24 hours. Such a Government does not rely on the support of the people, and deserves to fall. President Vidal, perhaps, does not believe this, but his wily Minister of War will soon explain such matters to him. Santos, with all his defects, has one great redeeming quality, and that consists in his iron energy, characteristic of his military training.

There is a certain amount of goodwill in the Government, but its mediocrity prevents it from carrying out successfully its aim. From one cause or another, whoever enters the Cabinet turns out bad; this is the case both with Ministers and Presidents. No sooner is a President or a Minister in office, put in by some party or another, than all join together to shuffle him off as an obstruction. All kinds of military and judicial men have been tried; even a medical man has got in and has not succeeded. The people may now cast their eyes and embody their hopes in woolbrokers and haberdashers, men who sell wool by the arrobe and cloth by the quality. Perhaps these happy 'mercatores,' remnants of the old Phenicians, may be the future political redeemers; their classical lore and jurisprudence training may be deficient, but they may understand the art of governing better than those who have passed, or than those who at present have so miserably failed in doing so.

Brokers, dry goods men, and pale apothecaries to the rescue; let these remove the present dissenting lawyers and squabbling military men from the political stage, and seize the reins of power, whilst they wield the yard measure and drug-pounder. The country is suffering from the effects of two much talent and too much law: the lawyers have become so wise that they no longer know the difference between right and wrong, whilst the military cut short all argument by drawing the sword. If the Montevidean press would only propound these ideas, matters might be straightened, but the editors themselves are the greatest bane of the country; they judge the individual by the volubility of the tongue and the list of successful bad lawsuits, and do more harm to the country by firebrand articles than all others put together. Redemption is thus farther off than people think. Revolution or a transaction will be the upshot of the present situation, and it is problematical which is the worst. A revolution cuts matters short, kills a great many obstructionists and plunges the country into ruin; a transaction patches up the cancer, which breaks forth with renewed vigor later on. Between both many would choose revolution, as it will be short and bloody, ruins the country and risk its independence. Orientals are not worth redeeming, if they cannot be redeemed by the very errors of the past.

EDITOR'S TABLE.

The event of the day yesterday was a surprise—nothing less than the arrival of an ocean steamer alongside the Catalinas Mole. It fairly took away the breath of the Riachuelo men. See full particulars in 'on 'Change.'

An Italian named Chiessi tried to murder his wife yesterday morning in the Mercado del Plata, stabbing her twice in the side, while she was buying meat. A fearful scene of excitement ensued during which the assassin tried to fly, but was seized and handed over to the police. The woman is in a critical state.

We have pleasure in stating that the Revd. Mr Williams, who is now in this city on his way to the Chuput Colony, will preach this evening in the Scotch Church, at 7 p.m.

The Rev. Father Jordan preaches at the Cathedral to-day.

A letter from Mendoza, in the *Industrial* gives most rosy prospects for that province when the railway reaches it, especially in the way of silk-culture. The writer also mentions a fact he discovered; viz, that in large tracts of low-lying lands, in which the water was supposed to be stagnant rain water, it really comes from bubbling springs which could be turned to most valuable account for irrigation purposes on artificial meadows that would feed half the cattle in the country. This is one of the numerous instances of wealth lying under our noses in this country and we turning up our noses at it as worthless.

Don Ricardo L Jordan, son of General Lopez Jordan, writes to the papers to say that all the political reports about his father's movements and intentions are pure inventions. We expressed our belief several days ago that such was the case.

The immigrant arrivals for March were not very numerous, only amounting to 1854 souls. The La France has brought a large number as her contingent for this month—over 500.

Du Aniceto Arce, the richest man in Bolivia (he has 90,000 pats per month income) has arrived at Salta on his way down to Buenos Aires.

Our readers will find the programme of the approaching amateur performance for the British Hospital advertized in another column. The prices are very low. We hear that the rehearsals are progressing splendidly, and that 'School' will be a treat of the first water. The 20th will be the day. Amateur acting is going ahead, like everything else in the Plate. A few years ago our British amateurs were in the Alegria or the Victoria theatre, and could not get a lady for love or money to join them; now they have soared to the Colon, and have a score of ladies to help them; and they could never have done this but for being so far superior to the average run of amateurs, and that undoubted superiority being fairly worked out of them by our indefatigable friend Mr William Martin.

The River Parana was reported last week as going back to bed; but now it is getting up again. Playful river.

An ex-Commissary of one of the colonies, who had taken passage in the R.M.S. Douro for Europe, was stopped, by order of the Government, on a rather serious charge, viz. of having first tortured and then caused to be hanged, one of the colonists! In other countries this would be called a charge of wilful murder, and it is satisfactory to know, on the authority of a native colleague, that the Tribunals are 'ventilating' this truly astonishing case. We hope the 'ventilation' will be a thorough one.

The great Edmund Burke had a sharpe tongue, as his enemies sometimes found. Speaking once on the Civil List he was annoyed by the repeated interruptions of a member who occupied a position in the royal household, and who called upon him to remember his duty as a subject to the king. Burke paused at this, and said "he was perfectly ready to honor the king, but he did not feel himself constrained therefore to honor the king's man-servant, his maid-servant, his ox"—and fixing his eyes upon the obnoxious intruder—"his ass!"

The Commissary General of Immigration advises the National Government to pay the Argentine Consuls in Italy a monthly stipend, to induce them to display a little more zeal in hunting up emigrants there for this country. Unpaid work is never done well, the only exception we know of being the work done by the British House of Commons, which is very well done and not paid for, except in honour and glory; but the orbits of British M. Ps. and Argentine Consule are rather far apart, and it would, perhaps, be a good move to pay the Consuls abroad. During our travels in Europe in 1878 we met one Consul of this republic who was quite unaware that he held the post, and we had a deal of trouble to prove to him that we knew his business better than he did himself, and that he was an Argentine Consul.

The latest papers from England show that that financial magician, the Prime Minister of England, has knocked a surplus of a couple of millions out of the Budget for the year which closed on the 1st inst., in spite of all the extra expenses of the Boer war, the commotion in Ireland etc.

A new paper in Montevideo, *La Verdad*, let fly, in its first number, a terrific broadside of 'unpleasant truths' at some members of the Government, and the editor then [very prudently] took to his heels. There is something rather laughable in this style of journalism, but it shows the wretched state of affairs on the other side of the river.

The odds on the great 'Eolo' race at the Hippodrome on the 24th will be found in our advertising columns.

M. Bœuf, who has just arrived from France to take command of the Naval School, intends to remove that institution to dry land, as is the case at Toulon; besides, he does not consider the craft in which the School is now established to be at all 'up to the mark.'

Brazil has ordered in England a new iron-clad, to cost £400,000.

People who have plants in vestibules or other places where there is green glass should smash the said glass forthwith, as the latest scientific experiments show that a green light kills and withers all vegetable life, whereas a red one causes it to flourish exceedingly.

La Moda Elegante is this week again well worthy of the attention of our lady readers, in the way of new fashions, patterns, bonnets etc.

In Tucuman bills on Cordoba and Rosario are at 26 premiam, and in gold on Buenos Aires they are offered at 72 per cent. The differences are large.

Some truly unfortunate fashionable in Rosario advertizes in the *Independiente* for his hat, which same one took from his box in the theatre, leaving a 'shocking bad' article in its stead. From our personal experience of human nature, we consider both the hat and the price of the advertizement as irrevocably gone. As well advertize for an umbrella.

Our musical readers will be delighted to learn that the Quartette Society will soon resume their classical concerts which were such a great treat. We believe the 25th inst. is the day named for opening with a grand Musical Festival.

A London cabman called out after a smart, dapper little gentleman, who affects particularly large hats "Come out of that 'at, will yer? I knows yer in it, 'cos I sees yer feet."

A colleague gives an interesting description of the extension works of the Andine Railway, which have now reached the summit of the incline, at Alto Grande, 27 kilometers from San Luis. 1950 men are at work, at wages of 25 pats. per month for every 300 cubic metres of earth removed. Some Italians amongst them, however, have removed as much as 459 cubic metres in a month, earning 37 pats. The navvies have their families with them, and the 'empresa' supplies them with tents, clothes, water etc. The consumption of spirituous liquors is strictly forbidden; 1000 wheelbarrows, all made in Buenos Ayres, are in use. The line is expected to reach San Luis in 80 days more. The traffic on the line from Villa Maria to Mercedes is already too much for the rolling-stock, and 4 more locomotives and 100 wagons have been ordered. Mr Villanueva, C.E., is commander-in-chief of this railway army of the Andes, and a very able commander he appears to be.

ALUE OF PAPER-MONEY.

Until the evening of 13th April the rate will be—

28$60 cents Prov. Bank m/c. 1$ gold.

E. CIVIX,

ON 'CHANGE.

	April 9th.
Patacons	28.55
Cedulas A	93½
National Bank Shares	81
Old Gas Co	2300

The gold market ruled firmer than yesterday, and although there was a fair delivery of exchange, gold prices were fully sustained by purchases for the rivers. The cash sales were very large, 222,500, opening at 28.50, rising to 28.60, and closing at 28,55. The rates for the end of the month were small, only amounting to 10,0000, opening at 28.50, and closing at 28.55, and for May at 28.45, sales of the day 692,550.

In Cedulas there were numerous sales and prices gave way a little, opening at 93¾, and closing at 93½, and selling for end of May at 93¼.

National Bank Shares were tossed about by bulls and bears, but the market rules very strong and prices instead of giving way under the pressure of sales reaching 2,500 shares rose ¼ and closed upward.

Old Gas Shares, one sale of 200 shares at 2,300, and at afterhours a sale of 46 shares at 2,350. As it is next to certain that now on the new organization of the Municipality the long standing debt due this Company will be paid, the stock looks capital buying at present prices.

Messrs Parry & Co. presented General Roca to-day with some cans of the McColl corned beef, the first of the kind ever manufactured in this country, and which promises to become a new and splendid staple of this country.

The sale of the Rosario Gas Works we hear is confirmed, we have as yet received no particulars of the business, but learn that Messrs Friss and Santa Maria are the buyers, and that the works have been divested.

The best news on Change to-day in the produce line was the sheepskin telegram from Bordeaux which we give in another column. This is the first let up in the European wool markets after a dreary interlude of constantly dropping prices; wool and skins seem at last to have touched bottom, and considering the very large stock of wool at present in the country, this news means much. The sales in our plazas are active, and we hear of a large business from the deposits, of probably 30,000 ar. that was to be concluded this afternoon.

Every one on 'Change talked of the amortization of National Bonds and Treasury Bills yesterday. It was an event that has surprised every one. We treat of the matter in our leading columns. Possibly none share more the general surprize at the prices paid than the holders themselves.

We received telegrams from Montevideo to day. The passengers arrived all right. Amongst those on board Douro is a young navy lieutenant named Del Viso, son of our talented Prime Minister.

The payments on 'Change were heavy and the demand for money felt at all the banks. Discount brokers report discounts difficult at 7. National Bills 9, and scarce, and Provincial Government 12. The Provincial Bank yesterday only discounted five millions.

The sales at the ring were—

For cash 222,550 at 28.50-60-55
For April 13th 10,000 28.55
For April 15th 25,000 28.50-55
For April 23rd 10,000 28.50
For April 30th 100,000 28.50-55
For May 31st 125,000 28.40-45
Sales, 592,550.

For April 12th A 4,000 93¼
For April 20th A 19,600 93¼
For April 30th A 35,000 93¼
For May 10th A 40,000 93¼
For May 31st A 10,000 93¼
Sales, 115,700.

Nat. Bank Shares—

For cash 730 shares at 80½-¾-81
For April 30th 1,730 shares at 81-80¾-81
For May 31st 350 shares at 81¼-80⅝-81¼-82

Old Gas Co. Shares—

For April 11th 200 shares at $2,300 m/c.

Mr Thomas Thomas, of Carcarana, was welcomed on 'change; he reports everything thriving up the country.

Farmers and others may be interested in knowing that the next Rural Exhibition will be on 15th Sept. to hold to 15th Oct.

It seems that Congress this year will open early, probably about 8th May; already some of the Deputies are arriving.

Gold at afternoon ruled slightly firmer, and the market closed at 28.60, sellers for cash and end of month.

Mr Banitz, of the Gran Chaco, was welcomed on 'Change.

As appears by telegram from London Hard Dollars have risen 2 per cent since the negotiation of the Railway loan.

The price paid yesterday for amortization Hard Dollars 95, is equal to about 84 in London, some of the bonds amortized yesterday were bought by a leading German house about a month ago and have given 18 per cent profit.

We are happy to say that the broker who suspended last month has arranged everything to the satisfaction of all; there was a slight fandango about some of the pormenores, but it ended in nothing.

Exchange for Monday's mail, Leibnitz 49½; all the English houses large takers of exchange during the week, they have swept the market clean of sterling bills, but the rather better news about wool will lead to a free supply of bills.

Messrs Baltar & Quesada sold at auction to-day Mr Nash's English bulls and rams, the attendance of bidders was large and the prices paid regular; bulls from 11,000 to 20,000 each, Lincoln rams 3000 m/c each.

The sale of a large number of cattle in the South is spoken of, price not stated.

At the Once this morning all the wool is sold, about 10,000 ar., market active and better. Next week some large sales in deposit probable.

The bids for materials for the W. Railway were decided to-day—

"4,000 tons Cockerell & Co, Belgium.

"4,000 do Cammell, England, represented by Mr Coghlan; this firm supplied the rails to the Southern Railway."

Price £6.12.6 per ton deliverable in Antwerp and Liverpool; one of the offers, we hear, ran as high as £10 per ton.

There was great talk on change about application having been made to the bank for a gold discount payable at maturity in full for 50,000 pats, which was refused. The bank they say holds now two millions pats in gold and does nothing with it and has 3½ millions pats gold lying in London at 2 per cent per annum interest. Everyon asks who is the President of the Provincial Bank, and what are the Directors thinking of. The house that applied for the gold discount is one of the first in this market.—

About 80,000 pats saladero gold sold to-day and 70,000 pats bought for rivers. The sale of a cargo of hides is spoken of but not reported.

The Sales at afterhours were—

To-day one of the greatest events in a commercial point of view ever recorded in this country came to pass, and merits a celebration rivalling our 25 May fetes. A large ocean steamer, the Correo, 3, came in from the gloomy outer roads, moored alongside the Catalinas mole, and discharged her cargo. The sight was one that surpassed all our anticipations, and proved what private enterprize and energy is able to effect. Doubtless what to-day was considered a wondrous sight will in a few months be an every day occurrence. Mr Seeber seems at last to have solved the port question, and whilst we are all groping our way in the dark about port schemes and what not, Seeber runs out his mole to deep water and solves the question. We live in moments of very marked events, and to watch, comment on, and chronicle those events is perhaps one of the most pleasing duties of the public writer. Merchants and others who well know the great trade of this port will perhaps better than Ministers or politicians measure the importance of Mr Seeber's achievement. The Boca has proved an immense gain to our trade and is susceptible of much development, but for large ocean steamers the Seeber's mole is widely superior, because with the Catalinas deposits at the very piers of the mole all the fine goods from the steamers are safe from exposure to the weather. Even could the large steamers enter the Riachuelo to-day it would always be a question how to land the cargoes, there being no sheds and no deposits, whilst the Catalina deposits are so close that the goods with very little handling can be landed from the steamers and lifted from the mole into the Bonded Warehouse. The moving of ocean steamers alongside the Seeber's mole will in all probability lead to a new departure in our port trade, and since it is now proven that by extending the pier to deep water we can abolish lighters, carts and whaleboats, there can be little doubt the Government will see the gain of at once constructing moles of sufficient length to accommodate our steamers. The country has grown a trifle since the days when to repair a hole in the mole was too much for our administration. We have outlived such times, and Mr Seeber's triumph today should stimulate the Government to fresh exertions to rid us of all the troubles and sorrows and blunders that to the present envelope our port trade. As the event is worthy of the greatest remark we give the following particulars:—

The steamer moored alongside the mole is the Correbo Tercero from Genoa; she brought 1,350 tons cargo for this port and 540 emigrant passengers; she brings a new boiler for the Guarani that weighs about 15 tons to discharge, which at the outer roads would cost ten times what it does at the mole. The steamer was built in Glasgow and belongs to Rossi & Ferrari's line; she draws 14 feet of water. Captain Demarchi showed us over his vessel. He came up to the mole this morning and moored alongside with the facility of a whaleboat. She sails on 14th inst for Marseilles and Genoa and has her return cargo engaged. We saw bales of wool and sheepskins on the mole waiting to be loaded. Everything reminded us of Dublin, Liverpool or Havre, the people on board talking with those on the mole, the sailors, the cook, the passengers. It was Liverpool not Buenos Aires; four steam cranes were hard at work, and all along the mole there was a small fleet of lighters discharging further down; the locomotive ran up and down the mole, and at two o'clock Mr Seeber accompanied by Governor Romero and his two Ministers De Demaria and Damico; Dr Del Viso, Minister of Interior, Mr Sarmiento and Mr Mansilla, Port Captain, and many others, all steamed down the mole in the waggons, and stepped from the mole on board this fine ultramar steamer. The sight was a glorious one; all seemed pleased; the champagne was uncorked and health and prosperity drunk to the s.s. Correbo Tercero, the first steamer from Europe that ever came alongside our mole. Mr. Sarmiento seemed thoroughly to appreciate the grand significance of the event, and although he made no speech, we thought, as he shook hands with Captain Demarchi, he inwardly said to the Italian mariner, "Tu Marcellus eris." The mole has been extended since we visited it last, and now measures 700 metres, and will be carried out another 500 metres, when the Lamport and Holt steamers and the Royal Mail will moor alongside. None seemed to take on more the importance of the day's event than the lighter men who stood in crowds with open mouths, wondering at the sight. We compliment Messrs Rossi and Ferrari on this great event and trust that Pres. Roca will give as premium to Capt Demarchi a good estancia of 4 sq. leagues of Rio Negro land, and 1000 cows on it to make a start. He has won his prize, and certainly should get it.

Messrs Portalis freres are the agents here of the Belgian firm that has obtained the Western Railway contract for rails from San Antonio to Arrecifes; we salute the firm and congratulate it on so important a business.

We have so much to do in this country with the English money market that a telegram from London about a change in the Bank rate commands as great interest as in New York or Paris. If the people in London took as much interest in our market as we do in theirs all our lands in the Rio Negro territory would be cheap at £5,000 per league, but we must bide our time. Yet it will interest many here to read the following paragraph, which shows that the name of Gladstone is synonymous with good finance; and spite of all the wars and extra expenses there will be a surplus this year in the British Treasury. We extract the following from a London paper received by the mail:—

"It is already evident that Mr Gladstone will realise a large surplus over the Budget estimates of last year. Last year it was assumed finally that the revenue would yield £380,000 more than the expenditure. The figures for twenty-six days have yet to be stated, but we see already an increase of more than the Budget estimate of revenue. The position will perhaps be rendered clearer by figures, thus:—

Increase of revenue to date	£2,000,000
Less Budget estimate	1,430,000
Surplus, so far	£ 570,000

Compared with last year there is a reduction of £1,460,000 in the expenditure, and any ultimate saving on the estimates will have to be added to the surplus. We have, further, to remember that the returns are at present made up to a date earlier by one day than last year, while the fast holidays will not interfere with the revenue until April. Last year Good Friday and Easter Monday came in March. Accordingly the net receipts of at least two extra working days will swell the current financial year's total. On the whole, then, Mr Gladstone will probably get the Budget surplus, the surplus of revenue already shown, besides the net receipts of two extra working days, and something from savings under expenditure, or some millions in all. The supply estimates for 1881/82 have been issued, those for the army showing an increase of £22,000; for the navy an increase of £159,000; and for Civil Service an increase of £645,000; but this augmented expenditure may be safely left to be covered by an elastic revenue, leaving Mr Gladstone an opportunity of reducing either debt or taxation to a material extent."

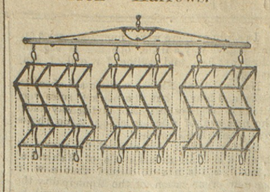
HOWARD'S CELEBRATED HARROWS.

Howard's Iron Harrows.



These Harrows have stood the test of many years experience and still remain unrivalled, the demand being greater than ever. Hundreds of thousands are in use. They are strong, durable, and thoroughly adapted for all kinds of work. The tines—which are all steeled—are so fastened that they cannot get loose.

The following are some of the most useful sizes:—

Prices in England.

	£	s.	d.
No. 11, for two or three animals, 10 feet wide, weight 2½ cwt....	4	0	0

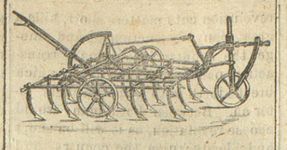
Howard's Self-Lifting Wheel Harrows.



These Implements will be found very serviceable both as Drag Harrows and as light Scarifiers. They possess an advantage over the ordinary Drag Harrows, in being mounted upon wheels, which whilst diminishing the draught, allows of ready adjustment for harrowing the land deeper or shallower as may be required.

Prices in England.

Dr. J. COLLIS BROWNE'S

(Ex Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Dublin.

Much curiosity was evinced in Land League circles here to-day to ascertain who had been apprehended under the Protection Act. Although the League had given instructions to the agents in the country to at once apprise the central body of any arrests, only one telegram reached the Sackville-street office upto six p.m., and that announced the arrest of Mr J B Walsh, the Secretary of the Castlebar Branch. Some members of the League telegraphed to various parts of the country, but got no response. It was remarkable that the Dublin evening papers were equally devoid of information on the subject, notwithstanding that telegrams from the provinces were being constantly delivered to the Criminal Department in the Castle. Yesterday afternoon the Chief Commissioner of Metropolitan Police and Captain Barlow, of the Prisons Board, inspected the arrangements made for the reception of prisoners at Kilmainham Gaol. The Land Leaguers arrested are to occupy the cells in the centre hall. The prison has been provided with five additional warders, and police constables are on duty inside the building. The gaol is guarded outside by an officer and twenty men of the 47th Regiment. Patrols will be kept on duty in the neighbourhood.

It was expected that all the prisoners taken into custody to-day would be brought to Dublin by the night trains. Anticipating the arrival of some of them from the South and West this evening, provision was made at the Broadstone and Kingsbridge Railway Stations. At the latter, Mr. Mallon, Superintendent of the Metropolitan Police, and Sub-Inspector French, head of the Constabulary Detective Department, were on the platform, with two other police inspectors and four detectives and about a dozen constables in uniform. Mr Kettle and two other members of the Land League put in an appearance, in the hope of seeing some of their friends on their way to prison; but two trains arrived from the South without bringing any of the persons arrested. Neither did any arrive by the train from the West.

This evening, at a late hour, Mr Michael Boyton, chief organiser of the League, was arrested in Kildare. The warrant was in the hands of Sub-Inspector Purdon, who with several police officers made the arrest of Mr Boyton. When taken into custody he protested, on the grounds that the warrant of arrest did not state the charge brought against him, and that he is an American citizen. He claims the protection of the U. States, and describes the arrest as an outrage. He was conveyed to Dublin by train to night.

In reference to Mr Boyton's letter to the *Standard*, I may mention that he left Dublin on the morning of the 12th of February, carrying with him a large amount of luggage, and that he has not appeared in Dublin since. Though he attended meetings in Kerry, they were not reported in the papers, and his absence from the city was commented upon. Mr Dillon, at to-day's meeting of the Land League, showed that Mr Boyton had been for the past fortnight organising the county Kerry.

There is a good deal of reticence here as to who have been arrested; but I understand two men, named Harrington and Power, of Tralee, are amongst the number. In some cases the accused cannot be in Dublin till to-morrow morning. Each prisoner on being apprehended was presented with a copy of the warrant specifying the particular charge in reference to which he was deprived of his liberty.

The House of Commons resumed in Committee the consideration of the Peace Preservation (Ireland) Bill. Mr Finigan was addressing [illegible] when he complained of [illegible] interruptions with which his remarks were met from the Radical benches, but added that he would not be deterred by them from saying what they should open their mouths even though only to bellow rather than remain silent. The interruptions continuing, Mr Finigan indulged in some excited language which elicited shouts of 'Withdraw' and 'Name' from all parts of the House. An uproarious scene ensued, in the midst of which the Chairman called upon Mr Finigan to withdraw two objectionable words which he had used. Mr Finigan protested that he had not used them in a personal sense, and Mr Callan demanded to know what the words were. The Chairman replied that the hon. member had addressed the Tradesmembers in a way that was unbecoming a gentleman to use in the House, and that he must withdraw the words forthwith. The words were then withdrawn, and the Chair were [illegible]

Mr Finigan in withdrawing the words used declared that he only did so because he should be out of order if he refused to do so. At the same time he would not withdraw the opinion he had expressed. Mr Callan then moved that Mr O'Donnell be suspended from service in the House during the sitting, and while members were going to the Division Lobbies, Mr. Callan, addressing the Speaker, asked whether there were any means of testing the veracity of the Home Secretary, but received no answer. Mr O'Donnell loudly protested from his seat that he had not disregarded the authority of the Chair, and complained that he had not been allowed to explain his point of order. The division ended in the Motion being carried by 143 to 32. The Speaker directed Mr O'Donnell to withdraw, and the command was promptly obeyed, without the necessity for calling the service of the Serjeant at Arms.

Mr. Mitchell Henry, M P, makes a strong attack on Mr. Parnell and his policy. He says it is notorious that Mr. Parnell never took the slightest interest in the land question during the early portion of his Parliamentary career, and did not adopt land reform as his cry until the policy of obstruction had failed in the House of Commons and Michael Davitt had suggested it to him as a more telling cry. The stupid, irrational, almost insane policy of the last few months has crippled the Irish vote in Parliament for ever. "The money extracted from poor people in America and at home is removed to foreign soil; no accounts are published; the leader flies at the very crisis of the fight which he professed to fight in Parliament; and Parliamentary liberties are destroyed." Such, adds Mr. Mitchell Henry, are the results of Mr. Parnell's policy.

CHILIAN TRADE.

We have received by the mail the Chilian commercial statistics for 1879 which will, no doubt, much interest this market:—

The results of the commerce of the Republic in 1879 suggest some very important observations. In the general trade there has been a falling off in Imports of all kinds of merchandize of 7,233,630 dollars, the inevitable result of the general confusion in trade through the rupture with the allies, which commenced by the occupation of the Bolivian coast, retaken by Chile in February of last year. This falling off in Imports is also due in part to the corresponding decrease in trade 'in transitu' with Peru and Bolivia, which, in that year, amounted to nearly two million dollars (1,938,721), or about two-thirds of the total amount of commerce 'in transitu' in normal years, and much greater even than the total amount corresponding to the same trade in 1879 ($1,172,654.) The trade 'in transitu' with the Argentine Republic, which of late years has decreased year by year, from causes which we pointed out on a previous occasion, also experienced a decline in 1879 of 179,603 dollars. In fine, the general trade amounted in 1879 to 65,416,184 dollars against 63,929,075 in 1878; an increase of 1,487,109 dollars in favor of 1879.

The special trade amounted to 75,452,447 dollars, of which sum 42,658,839 dollars corresponded to Exports, and 22,794,608 dollars to Imports. There was an increase in special trade of 1879 of 8,540,034 dollars. Exports increased 1,961,930 dollars, and Imports decreased dollars. It is proper to [illegible] that in the aforesaid year the foreign merchandize taken out of Bond for home consumption was in excess of the quantity deposited in the Custom-house, because merchants ordered less from Europe, and the consumption had to be supplied with the stocks in Bond.

In this year's statistics there figures for the first time the exportation from the new port of entry, Antofagasta, and from the minor one of Mejillones. The value of the exports from the former was 5,454,991 dollars. The particulars of the importation by the said port of Antofagasta have not been included in the general statement, because they were remitted too late by the Custom-house at that port, but they will be found, together with others, in the appendix to this volume. The value of the aforesaid importation from April 1st to December 31st of 1879 was 432,173 dollars in the following form:—

Value of merchandize taken out of Bond under the Chilian tariff which came into force on April 1st, 1879.....	$345,733
Do., do. under the Bolivian tarifi	86,440
	$432,173

In order, therefore, to obtain the real total value of the Imports in 1879, there must be added to the before-mentioned sum of 22,749,608 dollars, the value of the Imports at Antofagasta, which makes a grand total of 23.226,781 dollars.

The total amount, therefore, of the special trade in 1879 was 66,012,357 dollars, the Exports having exceeded the Imports by 19,303,321 dollars, which result demonstrates the soundness of our economical resources, and the uninterrupted development of all the elements which constitute the national wealth. The splendid wheat harvest of 1879 contributed very largely to this result, the exportation to foreign countries of that cereal having reached the enormous figure of 142,182,985 kilos.

This highly favourable result for the national credit is still more striking when compared with the commercial statistics for 1879 of the most prosperous countries. As has been shown, the special trade of Chile exceeded by 15.79 per cent. that of 1878, whereas the commerce of Great Britain decreased 0 40 per cent., and that of the United States 0.55 per cent.; that of Italy increased 11 per cent., and that of the Argentine Republic 5 per cent.

Al Publico
P. DILLEMANN y Ca., para evitar juicios erroneos en el asunto de la marca PESCADO, hacen constar:—
1°. Que sacaron en el año 1874 Patente por la marca PESCADO en Francia.
2°. Que sacaron Patente de la marca PESCADO en el año 1876 en la Republica Argentina en toda forma para los articulos de FERRETERIA y CUCHILLERIA que acostumbran introducir en este mercado, como marca de COMERCIO y de FABRICA, la cual les fué concedido para SU USO ESCLUSIVO. La Patente fue publicada durante un mes en los diarios, segun lo prescribe la ley, sin que hubo alguien que hubiera protestado contra ella.
3°. Que habiendo sido introducido una imitacion y falsificacion de su marca, acusaron criminalmente la casa que habia cometido este delito. La casa en cuestion, los Sres. Mantels y Pfeiffer, fue condenada y la sentencia publicada en los diarios por cuenta de ella.
4°. Que recien durante la tramitacion del proceso la casa de Mantels y Pfeiffer buscó hacer valor la patente de un fabricante en Francia a su Carpa, y pidio su registracion para Contarel Denise y fils, la que les fue negada por la oficina de patente por ser PROPIEDAD EXCLUSIVA de P. Dillemann & Co. en la Republica Argentina, como marca de COMERCIO, y de FABRICA.
5°. Por ultimo recurso se dirigio la casa de Mantels y Pfeiffer al ejecutivo en apelacion para obtener el registro de la marca Carpa, y el Exmo. Gobierno ha tenido a bien, concederles parte, de lo que es PROPIEDAD NUESTRA, adquirida en toda forma, como lo prescribe la ley.
6°. Al fin diremos, que todos los forreteros que vienen a nuestra casa, saben que si la marca Pescado ha adquerido una cierta fama es porque hemos trabajado durante muchos años, a espender los articulos de esta clase en la mejor calidad.
En cuanto a las apreciaciones, que ciertas personas se han permitido hacer de nuestro modo de proceder, no hay necesidad de defendernos, 32 años de vida comercial en esta plaza bastan para habernos hecho conocer.
e 18 m5

AL PUBLICO
La casa de Dillemann & Co. ha creido conveniente llamar la atencion publica por medio de los diarios sobre una cuestion de marcas que ha tenido con nosotros y que ha concluido ahora con nuestra mas completo triunfo.
A estas publicaciones contestamos
1. Que la marca carpa (UN PESCADO) es la propiedad de los fabricantes en cuchilleria Srs. Contarel Denise & Fils quienes lo poseen hace mas de 60 años.
2. Que nosotros hemos presentado poder de dichos fabricantes.
3. Que si la casa de Dillemann & Co. ha hecho registrar aqui en su nombre la marca pescado era con el evidente objeto de usurpar los derechos de nuestros representados.
4. Que es ridiculo de Dillemann y Co. llamar imitation y falsificacion los cuchillos importados por nosotros y comprados al fabricante (verdadero dueño de la marca de de 60 años.)
5. Que Dillemann & Co. no son fabricantes sino introductores como nosotros, no tiene valor su pretension de haber anotado la marca Pescado como suya en un pueblito de Francia cuando debian registrarlo en el Ministerio de artes y oficios de Paris lo que no consta que hayan hecho.
6. Que por toda constancia a todos los desahogos de los Sra. Dillemann y Co. agregamos el decreto del Gobierno Nacional.

Por los fundamentos del precedente dictamen del Sr. Procurador General de la Nacion queda sin efecto la resolucion de 24 Octubre 1878 por la que la Oficina de Marcas de Fabrica y Patentes de Invencion denego a los Srs. Mantels y Pfeiffer la marca CARPA que estos solicitaron en representacion de los Sra. Contarel Denise et Fils para articulos de cuchilleria, y vuelva el espediente a dicha Oficina para que sin perjuicio a los Srs. Dillemann & Co. verifique el registro correspondiente en los terminos de la Ley.
Comuniquese, publiquese e insertese en el R. N.
ROCA
A. del Viso.
Como se ve este decreto pone fin a cualquier polemica y no justifica de ningun modo el proceder de la casa de Dillemann & Co. a pesar de sus 32 años de vida comercial en esta plaza.

LA INVERNADA
Ires leguas de campo con aguada
Partido de Tres Arroyos
A una legua de Guamini
Rodeado de pobladores Ingleses
Con 8 años para pagar
BASE DE VENTA
$110,000 Legua
En nuestra casa
78—Alsina—78
El Sabado 23 de Abril
A las 3 de la tarde

Remataremos a la mas alta postura para el contado y el resto a ocho anos de plazo, pagaderos en anualidades de 18,000 pesos con letras de Gobierno.

Tres leguas de magnificos campos con aguada permanente en varias lagunas, conocidas en Guamini por 'La Invernada' distantes una legua del pueblo del mismo nombre.

El campo tiene 60 cuadras de frente por 80 cuadras de fondo y esta rodeado de los establecimientos de los Sres Humphreys, Jafferes, Ricketts, Tetley y Norton, varios de estos senores van ya a proceder al alambrado de sus campos y a poblarlos sobre la marcha, de manera que la Invernada va a quedar alambrada por dos costados.

Ademas estos campos estan a pocas leguas de los campos que va a rematar el Gobierno el 23 de Abril e inmediatos a las veinte leguas que van a entregarse al Brigadier General Roca sobre la laguna Alsina que esta a pocas vs de la linea de estas 3 leguas.

El Ferro carril del Sud que estendera su red hacia Bahia Blanca pasando por Guamini o Carhue desde el Azul, pasara muy cerca de este campo asi que tendran inmenso valor los Establecimientos que queden en esa zona debido no solo a esa ventaja sino a la bondad de sus pastos y tierras, que no tienen rival en la Provincia.

La base para la venta es 110,000 ps m|c por legua cuadrada pudiendo el comprador cargar con las letras del Gobierno que importan 18,000 ps anuales cada una y por 8 anos.

Actualmente hay una diligencia que sale todas las semanas de Azul a Guamini y por 10 pesos se manda un telegrama desde B. Aires, la estacion queda a una legua del campo.

Los interesados pueden ocurrir por mas informes y planos a nuestra casa Alsina 78.

A LOS ESTANCIEROS
3 leguas de campo flor
Con aguada ptrmanente y laguna dentre del campo
A 1 dia de viaje de la capital
Situado en el partido de Necochea
DENOMINADO
LAS CALAVERAS
La base para la venta
Es de 200000 ps. p. legua

Por orden del senor Juez de 1ª Instancia doctor Tedin. El dia 19 de Abril a las 2 de las tarde, se procedera a la venta en la casa de remate del senor Ponsati, Bolivar num. 83.

Este campo se encuentra rodeado de buenos vecinos, como lo son los senores que se designan: senor Anchoreno, senor Nepomusino Fernandez, senor Domingo Ezeiza, senor Bosch, senor Girado, por los pobladores pueden los interesados deducir la calidad de los campos de ese partido.

La base que se ha designado para la venta como se informaran por el edicto que abajo se publica, es la suma de insignificante de pesos 200,000, por la legua, y he dicho insignificante porque el valor que tienen los campos en ese partido es mayor como lo saben bien las personas inteligentes en este negocio.

Los linderos al campo que se vende son los senores por el NorOeste el senor Martin Gomez, por el NorEste con el senor Elegalde, por SudEste con el senor Nepomusino Fernandez y por el fondo linda con legua y media que le pertenece a la senora de Gomez y al senor Chueco.

El costado de campo que linda con el senor Elegalde esta alambrada.

Los interesados que deseen mayores informes pueden ocurrir al rematador, Bolivar numero 61, o Tacuari num. 426.

Por carteles y planos pueden los interesados pasar por la calle de Bolivar num. 61.

EDICTO JUDICIAL—El senor Juez de 1ª Instancia en lo Civil doctor don Virgilio M. Tedin, ha dispuesto se proceda a vender en remate publico el dia diez y nueve del entrante mes de Abril, por el Martillero Francisco Bulnes, tres leguas de campo situadas en el partido de Necochea denominadas "Las Calaveras" de propiedad de doña Juana Gomez y de don Alejandro A. Chueco, equivalentes a 8099 hectares 6 areas, 48 centiareas, a cuyo campo se le ha asignado por los interesados el valor de doscientos mil pesos moneda corriente a cada legua, siendo esta cantidad la base para la venta. Los que se interesen pueden ocurrir por los datos a la oficina del Secretario don Miguel Repetto a la que estoy adscripto, y por donde tramita la ejecucion que contra ese campo sigue don Jose Fernandez.—Buenos Aires, Marzo 7 de 1881. Justiniano Reynoso.

Ademas este campo tiene dos arroyos, el de La Tinta y el del Pardo Marcelino.
